

# Headspace Vials

**K'(Prime) headspace vials.  
Clean. Tested. Proven.**

Vial integrity, cleanliness and reliability are critical and can seriously affect your effectiveness with today's demanding applications. That is why our headspace vials are manufactured to provide consistent sampling reliability. These vials are manufactured in clean environments, and are tested by GC/MS prior to release. Don't lose out on costly instrument downtime and potential loss of your samples.
